

Seventh International Symposium

# Machine Processing of Remotely Sensed Data

with special emphasis on  
**Range, Forest, and Wetlands Assessment**

June 23-26, 1981

## Proceedings

Purdue University  
Laboratory for Applications of Remote Sensing  
West Lafayette, Indiana 47907 USA

## Symposium at a Glance

TUESDAY JUNE 23		WEDNESDAY JUNE 24		THURSDAY JUNE 25		FRIDAY JUNE 26			
7:45-	Registration East Foyer of Stewart Center	8:30 - 11:30	II.A	Classification Accuracy Assessment Procedures Rm. 202	IV.A	Understanding and Characterizing the Forest Scene/Rm. 202 Rm. 202	9:00- 12:00	CLOSING PLENARY Fowler Hall	
9:00- 12:00	OPENING PLENARY Fowler Hall		II.B	Geologic Applications of Remote Sensing Rm. 210	IV.B	Rangeland and Land Use Applications of Remote Sensing/Rm. 210			
			II.C	Preprocessing and Systems/Rm. 214	IV.C	Remote Sensing and Georeference Information Systems/Rm. 214			
Breaks: 10:00-10:30, Rm. 206				Visit the Exhibit Room					
1:30 - 4:30	I.A Effective Techniques for Classi- fying Forest Cover Rm. 202	III.A	Special Reports and Discussion Sessions Focused on Two Recent National Wrokshops Rm. 202	V.A	Forest Resource Infor- mation Through Remote Sensing Rm. 202	OPEN HOUSE at LARS Flex 2			
	I.B Agronomic Applications of Remote Sensing Rm. 210	III.B	Wetlands and Water Resources Assessment Rm. 210	V.B	Remote Sensing and Georeference Information Systems/Rm. 214				
		III.C	Image Data Modeling and Analysis Rm. 214						
Breaks: 3:00-3:30, Rm. 206									
7:30- 9:30	POSTER PAPER PRESENTATIONS Rm. 206	5:30	Chicken Barbecue at Fort Quiatenon						

Seventh International Symposium

# **Machine Processing of Remotely Sensed Data**

with special emphasis on

## **Range, Forest, and Wetlands Assessment**

**June 23-26, 1981**

Cover design and layout by S.L. Ferringer

## CATALOG NUMBERS

IEEE CATALOG NUMBER 81 CH 1637-8 MPRSD

LIBRARY OF CONGRESS CATALOG NUMBER 80-85518

## PROCEEDINGS OF THIS AND PRIOR SYMPOSIA

The 1981 printed proceedings will be mailed to all fully paid participants in September, 1981. Full-time students in attendance at the symposium may purchase a copy of the proceedings by contacting Doug Morrison, after September 30, 1981. Others desiring copies of the current, 1981 proceedings, may purchase them from IEEE at either of the following addresses:

IEEE Single Copy Sales  
445 Hoes Lane  
Piscataway, New Jersey 08854  
USA

IEEE Computer Society  
5855 Naples Plaza  
Suite 301  
Long Beach, California 90893 USA

The IEEE catalog number should be specified for the ones desired; the title in each instance is Machine Processing of Remotely Sensed Data.

1973 CH 0834-2 GE  
1975 CH 1009-0-C  
1976 CH 1103-1 MPRSD  
1977 CH 1218-7 MPRSD

1979 CH 1430-8 MPRSD  
1980 CH 1533-9 MPRSD  
1981 CH 1637-8 MPRSD

There was no symposium in 1974 or 1978.

Copies of the current proceedings will also be available from ASP and Purdue University at the following addresses:

American Society of Photogrammetry  
105 N. Virginia Avenue  
Falls Church, Virginia 22046

Purdue University/LARS  
1220 Potter Drive  
West Lafayette, Indiana 47906

Unless permission is granted this material shall not be copied, reproduced or coded for reproduction by any electrical, mechanical or chemical processes, or combination thereof now known or later developed.

Copyright and Reprint Permission: Abstracting is permitted with credit to the source. Instructors are permitted to photocopy isolated articles for noncommercial classroom use without fee. For other copying, reprint or republication permission write to Purdue Research Foundation, Division of Patents and Copyrights.

# Preface

These proceedings serve as the written record of the papers presented at the Seventh International Symposium on Machine Processing of Remotely Sensed Data, held at Purdue University, June 23-26, 1981. The texts of 99 invited and contributed papers (including poster papers) are contained in this volume. We all recognize, however, that no written text can do an adequate job of recording the information exchange that takes place during coffee breaks, over meals or in the evening, as well as during the question and answer sessions after the papers. The Symposium was designed to allow for adequate exchange of information among the attendees at times other than during the formal presentations. The poster paper session on Tuesday evening, an informal barbeque at Fort Ouiatenon on Wednesday evening, and a discussion session Thursday evening helped to stimulate opportunities for informal discussions and exchanges of ideas and view points.

This 1981 Symposium focused attention on forest, range and wetland assessment. This theme was highlighted by opening and closing plenary sessions which addressed the topics of "Meeting Forest Information Needs Through Remote Sensing: What Is the State-of-the-Art?" and "Monitoring the World's Forest Resources: Today and Tomorrow." Between the opening and closing sessions, a series of three parallel technical sessions was held. The first of these series focused on forest resources and included sessions on the topics of "Effective Techniques for Classifying Forest Cover," "Classification and Accuracy Assessment Procedures," "Understanding and Characterizing the Forest Scene," and "Forest Resource Information Through Remote Sensing." The second group of sessions was directed at non-forestry applications and included sessions on "Agronomic Applications of Remote Sensing," "Wetlands and Water Resources Assessment," and "Rangeland and

Land Use Applications of Remote Sensing." The third series of sessions was directed at the machine processing aspects of remote sensing systems. It included sessions on "Preprocessing and Systems," "Image Data Modeling and Analysis," "Remote Sensing and Geo-referencing Information Systems." Three sessions during the week featured panel discussions in order to encourage audience participation and general discussion.

A large measure of the success of this Symposium goes to the co-sponsoring and cooperating organizations and to the members of the program committee and session chairmen who represented these groups. The cooperation, time, and efforts of the various members of the Symposium Program Committee, as well as the session coordinators, session chairmen, and particularly the authors of the many fine papers presented are deeply appreciated. These people are congratulated for a job well done.

There was a total of 227 participants at this Symposium, including 51 from foreign countries. Thirty-three states within the U.S. and 15 foreign countries were represented. To facilitate further communication among participants of the Symposium and others who may wish to contact various authors or participants, we have included a list of the session chairmen, authors, and other participants on pages 711 through 723.

Copies of these proceedings are available from Purdue University, from the American Society of Photogrammetry, or from the IEEE. The addresses of these organizations are shown at the beginning of the proceedings.

Roger M. Hoffer and Richard P. Mroczynski  
Symposium Co-Chairmen

## SYMPOSIUM CO-CHAIRMAN

### ROGER M. HOFFER

Program Leader of the Ecosystems Research Programs, LARS, and Professor of Forestry, Department of Forestry and Natural Resources, Purdue University.

B.S. in Forestry from Michigan State University; M.S. and Ph.D. in Watershed Management from Colorado State University. Dr. Hoffer has been involved full-time in remote sensing research and teaching since 1974, and was a co-founder of LARS in 1966. He teaches three different courses on Remote Sensing of Natural Resources and has served as a principal investigator on Landsat, Skylab, and several other major remote sensing projects.

Professor Hoffer is author or co-author of more than 120 scientific publications and papers on remote sensing. He has presented invited papers at international meetings throughout the world and spent several weeks as a remote sensing specialist in Brazil, Thailand, Afghanistan, and Bolivia. He has been a consultant to several national and international agencies and has served on numerous technical panels at the request of NASA.

Dr. Hoffer is a member of the Society of American Foresters, American Society of Photogrammetry (where he has served as the Associate Editor of Photogrammetric Engineering and Remote Sensing and as Director of the Remote Sensing and Interpretation Division), Sigma Xi, Xi Sigma Pi, and several other professional and honorary societies. He received the 1978 Alan Gordon Memorial Award in recognition of his pioneering work in the field of remote sensing, is a Certified Photogrammetrist, and is listed in American Men and Women in Science.

### RICHARD P. MROCYNSKI

Associate Program Leader for Ecosystem Research Programs, LARS

B.S.F. in Forest Production and M.S. in Forestry, University of Illinois. Richard P. Mroczynski joined LARS in 1969 and has been involved with photointerpretation and Landsat Analysis.

Richard has been principal investigator and manager of a number of projects which involved the inventory of natural resources. Significant among these have been projects with: NASA and the St. Regis Paper Company involving the development of a Forest Resource Information System; Ducks Unlimited (Canada) for a Waterfowl Habitat Inventory over 200,000 square miles in Canada; and a Derelict Land Survey for the Indiana Division of Reclamation.

He is a member of the Society of American Foresters, active in that organization's Working Group on Photogrammetry and Remote Sensing. In addition, he has served in various capacities with the American Society of Photogrammetry and is a member of the American Forestry Association and the American Management Association.

## SPONSORSHIP

COSPONSORS: AMERICAN SOCIETY OF AGRONOMY  
CROP SCIENCE SOCIETY OF AMERICA  
INSTITUTE OF ELECTRICAL AND ELECTRONICS ENGINEERS, INC.  
- COMPUTER SOCIETY  
- GEOSCIENCE AND REMOTE SENSING SOCIETY  
SOCIETY OF AMERICAN FORESTERS  
- WORKING GROUP ON REMOTE SENSING AND PHOTOGRAMMETRY  
SOIL SCIENCE SOCIETY OF AMERICA

IN COOPERATION WITH: AMERICAN SOCIETY OF PHOTOGRAMMETRY  
NATIONAL AERONAUTICS AND SPACE ADMINISTRATION  
NATIONAL OCEANIC AND ATMOSPHERIC ADMINISTRATION  
U.S. DEPARTMENT OF AGRICULTURE

## ACKNOWLEDGEMENTS

THE CO-CHAIRMEN WOULD LIKE TO TAKE THIS OPPORTUNITY TO EXTEND  
A SPECIAL THANKS TO THE FOLLOWING COMMITTEE MEMBERS WITHOUT  
WHOSE EFFORTS AND COOPERATION THE SYMPOSIUM WOULD NOT HAVE  
BEEN POSSIBLE.

### PROGRAM COMMITTEE

\*ROGER M. HOFFER  
\*RICHARD P. MROCYNSKI  
MARION F. BAUMGARDNER  
NEVIN BRYANT  
LISETTE DOTTAVIO  
DAVID G. GOODENOUGH  
ROY MEAD  
FRANK SADOWSKI

### SYMPOSIUM COORDINATION COMMITTEE

\*ROGER M. HOFFER  
\*RICHARD P. MROCYNSKI  
PAUL E. ANUTA  
LUIS A. BARTOLUCCI

## Meeting Forest Information Needs Through Remote Sensing: What is the State-of-the-Art?

SESSION CHAIRMAN: Mason C. Carter

Dr. Mason C. Carter, Professor and Head of Department, Forestry and Natural Resources at Purdue University. Dr. Carter received a B.S. degree in Forestry from Virginia Polytechnic Institute in 1955, and a M.S. degree in Plant Physiology from that Institution in 1957. He then attended Duke Univ. receiving the doctoral degree in tree physiology in 1959. Dr. Carter was then employed as a research forester, Southeastern Forest Experiment Station, Macon, Georgia, serving as a project leader in tree seed research. Dr. Carter joined the faculty at Auburn Univ. from 1960-1973 as associate professor, held a joint appointment in Botany and Microbiology; he was made Alumni Professor in 1969. Dr. Carter taught plant physiology and conducted an extensive research program in herbicide physiology. He assumed his present position in 1973. Dr. Carter is author or co-author of 64 scientific articles appearing in professional journals, and since coming to Purdue, has chaired or served on numerous professional committees. Presently he is a member of the SAF Committee on Accreditation, and a member of the American Forest Institute, Forest Industries Council, Industry Executives/Forestry Deans Committee. He is also a consulting member of International Paper Company's Forest Research Council.

# I A

## Effective Techniques for Classifying Forest Cover

SESSION CHAIRMAN: Roger M. Hoffer

Roger M. Hoffer is Professor of Forestry and Leader of Ecosystems Research Programs, LARS, Purdue University. B.S. in Forestry, Michigan State University; M.S. and Ph.D. in Watershed Management, Colorado State University. Co-founder of LARS in 1966, Dr. Hoffer currently teaches three courses in Remote Sensing of Natural Resources. He has lectured, consulted, and participated in remote sensing activities in many countries throughout North and South America, Asia, and Europe; has served as a principal investigator on Landsat, Skylab, and other major remote sensing projects, and has authored over 125 scientific papers and publications on remote sensing. Professor Hoffer's research has focused on the use and refinement of computer-aided analysis techniques for forestry applications, and on the study of the spectral characteristics of earth surface features.

# I B

## Agronomic Applications of Remote Sensing

SESSION CHAIRMAN: Craig Daughtry

Craig Daughtry is a research agronomist with the Laboratory for Applications of Remote Sensing at Purdue University. He has B.S. and M.S. degrees in agronomy and a Ph.D in crop physiology from Purdue University. Dr. Daughtry has actively participated in design, implementation, and analysis of crop inventory research at LARS. He is a member of the American Society of Agronomy, Crop Science Society of America, American Society of Photogrammetry and several honorary societies.

Page 80 is blank

## II A

# Classification Accuracy Assessment Procedures

SESSION CHAIRMAN: David G. Goodenough

David George Goodenough is a senior research scientist at the Canada Centre for Remote Sensing of Energy, Mines and Resources Canada. He is Head of the Methodology Section which is concerned with the physics, pattern recognition, systems development, and engineering of systems and spectroscopic laboratories for remote sensing data analysis. He is a member of several national committees concerned with remote sensing and space science and is the author of more than 34 technical publications.

Goodenough is an active member of the IEEE, the Canadian Remote Sensing Society, the American Astronomical Society, and the Pattern Recognition Society. He is a non-resident professor in the Department of Electrical Engineering of the University of Ottawa and an Adjunct Professor in the Centre for Research in Experimental Space Science of York University.

## II B

# Geologic Applications of Remote Sensing

SESSION CHAIRMAN: William D. Di Paolo

William D. Di Paolo received his B.S. and M.S. in Geology from Northern Illinois University. After a few years as a geologist in industry in Illinois he joined USGS as a geologist in Flagstaff, Arizona. While there he did additional graduate work in geophysics and geochemistry at Arizona State University.

In 1974 Mr. Di Paolo joined BLM as District Geologist in the Winnemucca District office in Nevada. He has also been district geologist in the Phoenix District, and is a Registered Professional Geologist in Arizona. He spent a year as a Visiting Scientist with Purdue University's LARS and is currently with the Remote Sensing branch of BLM in Denver where he has been since 1979 working on projects in Idaho and Arizona.

# II C

## Preprocessing and Systems

SESSION CHAIRMAN: Frederic C. Billingsley

Frederic C. Billingsley has had over 30 years experience in electrical engineering following his receipt of three degrees from Rensselaer Polytechnic Institute, Troy, New York. Joining the Jet Propulsion Laboratory in 1962, Mr. Billingsley has been a Group Supervisor responsible for the development of the Image Processing Laboratory and the VICAR image processing systems. Subsequently, he (along with N. Bryant) defined the Land Use Management System, which has evolved into IBIS. Currently he is a member of the technical staff concerned with the development of future generation sensors using area array detectors. He is a senior member of IEEE and is an Associate Editor for the Computer Graphics and Image Processing Journal.

# III A

## Special Reports Focused on Two Recent National Workshops

### PART I

SESSION CHAIRMAN: David G. Goodenough

David George Goodenough is a senior research scientist at the Canada Centre for Remote Sensing of Energy, Mines and Resources Canada. He is Head of the Methodology Section which is concerned with the physics, pattern recognition, systems development, and engineering of systems and spectroscopic laboratories for remote sensing data analysis. He is a member of several national committees concerned with remote sensing and space science and is the author of more than 34 technical publications.

Goodenough is an active member of the IEEE, the Canadian Remote Sensing Society, the American Astronomical Society, and the Pattern Recognition Society. He is a non-resident professor in the Department of Electrical Engineering of the University of Ottawa and an Adjunct Professor in the Centre for Research in Experimental Space Science of York University.

### PART II

SESSION CHAIRMAN: Shirley M. Davis

Shirley M. Davis is Senior Education and Training Specialist at LARS. She is responsible for the design and development of educational materials and courses in the field of remote sensing. Ms. Davis' formal education in English literature (A.B. with Honors, Sweet Briar College; M.A. Western Reserve University) was augmented by experience as a teacher and training director before her employment at LARS in 1971. There she has served as editor, remote sensing data analyst, writer, instructor and instructional developer of courses and of educational material in print and electronic media. She is currently principal investigator on three technology transfer contracts. Since 1977, she has been a consultant in Instructional Development for the International Institute for Aerial Survey and the Earth Science (ITC), The Netherlands. She is a member of the American Society of Photogrammetry, Society for Technical Communications, the Remote Sensing Society (England), and Women in Communications.

# III B

## Wetlands and Water Resources Assessment

SESSION CHAIRMAN: C. Lisette Dottavio

Education: Ph.D., Dept. of Forestry  
Purdue University  
Work under Roger Hoffer  
Research: Remote Sensing  
of Natural Resources

M.A., Dept. of Geography  
University of Colorado

Employment: NASA/Goddard Space Flight  
Center  
Earth Resources Branch  
Job Title: Environmental  
Physical Scientist  
Project Coordinator for  
Forestry Applications  
Pilot Test which examines the  
utility of Landsat MSS for  
gypsy moth defoliation assessment.

# III C

## Image Data Modeling and Analysis

SESSION CHAIRMAN: Philip H. Swain

Philip H. Swain is associate professor of electrical engineering, Purdue University and Program Leader for Data Processing and Analysis Research at the University's Laboratory for Applications of Remote Sensing (LARS). B.S.E.E., Lehigh University; M.S.E.E. and Ph.D., Purdue University. Prof. Swain has been affiliated with LARS since 1966 and has contributed extensively to the development of data processing methods for the management and analysis of remote sensing data. His areas of specialization include theoretical and applied pattern recognition and methods of artificial intelligence. He is co-editor and contributing author for the textbook, Remote Sensing: The Quantitative Approach, (McGraw-Hill, 1978).

Page 340 is blank

## IV A

# Understanding and Characterizing the Forest Scene

SESSION CHAIRMAN: Frank G. Sadowski

Frank Sadowski is Senior Applications Scientist in Biosciences at the EROS Data Center in Sioux Falls. His principal duties include the research, design and implementation of cooperative demonstration projects and instruction in EDC-sponsored courses. Prior to coming to EDC, Mr. Sadowski was a Research Scientist with the Environmental Research Institute of Michigan for 10 years. Mr. Sadowski received his B.S. degree in Forestry from the University of Missouri in 1966 and his M.S. degree in Remote Sensing from the University of Michigan in 1974.

Page 394 is blank

## IV B

# Rangeland and Land Use Applications of Remote Sensing

SESSION CHAIRMAN: Richard A. Weismiller

Richard A. Weismiller is Program Leader for the Earth Sciences Research Program Area at LARS. B.S., Agronomy, with Highest Distinction, Purdue University; M.S., Soil Mineralogy, Purdue University; Ph.D., Soil Chemistry-Clay Mineralogy, Michigan State University. He joined LARS in 1973 after four years in the USAF, serving as a research scientist, Civil Engineering Research Division, Air Force Weapons Laboratory, Kirtland AFB, New Mexico. During May 1974-July 1980 Dr. Weismiller served as Associate Program Leader for Earth Sciences Research at LARS. He is a member of Phi ETA Sigma, Alpha Zeta, and Sigma Xi honoraries, the Soil Science and Clay Minerals Society, and the Soil Conservation Society of America. He is also listed in American Men and Women in Science. His publications are in the areas of remote sensing as related to soils and land use and infrared spectroscopy studies of clay minerals.

Page 464 is blank

## IV C

# Remote Sensing and Georeference Information Systems

SESSION CHAIRMAN: Nevin A. Bryant

Nevin A. Bryant is responsible for the conceptualization and applications of geographic information systems based on digital image processing technology and the use of remotely sensed imagery at the Jet Propulsion Laboratory's Image Processing Laboratory.

Dr. Bryant received his B.A. degree from McGill University in Honours Geography; his M.A. degree from the University of Hawaii in Geography, and his Ph.D. from the University of Michigan.

Dr. Bryant has conducted field research in Western Samoa and Java, Indonesia related to the interaction between population growth and regional economics and has more recently undertaken projects related to vegetation and land use mapping. His present interest include data reduction and interpretation of satellite imagery, geographic information systems, and regional economic modelling with particular emphasis on metropolitan areas.

*Page 518 is blank*

# V A

## Forest Resource Information Through Remote Sensing

SESSION CHAIRMAN: G. Robinson Barker

G. Robinson Barker received his A.B. degree in History from Middlebury College in Vermont after serving four years in the Navy as a hurricane hunter. Following receipt of his M.F. degree in Management and Silviculture from Yale, he joined St. Regis in Pensacola, Florida. After a few years work on forest inventory at the divisional level he became Operations Research Forester converting inventory to a computer based system. This led to the position of Assistant Manager for Technical Forestry with complete responsibility for automated divisional information systems, including inventory. His accepted proposal to NASA of using Landsat as data source in forestry was then demonstrated to be feasible and he was appointed as Manager Forest Resource Information Systems for St. Regis Paper Company.

# V B

## Remote Sensing and Georeference Information Systems Continued

SESSION CHAIRMAN: Nevin A. Bryant

Nevin A. Bryant is responsible for the conceptualization and applications of geographic information systems based on digital image processing technology and the use of remotely sensed imagery at the Jet Propulsion Laboratory's Image Processing Laboratory.

Dr. Bryant received his B.A. degree from McGill University in Honours Geography; his M.A. degree from the University of Hawaii in Geography, and his Ph.D. from the University of Michigan.

Dr. Bryant has conducted field research in Western Samoa and Java, Indonesia related to the interaction between population growth and regional economics and has more recently undertaken projects related to vegetation and land use mapping. His present interest include data reduction and interpretation of satellite imagery, geographic information systems, and regional economic modelling with particular emphasis on metropolitan areas.

# Closing Plenary

## Monitoring the World's Forest Resources: Today and Tomorrow

SESSION CHAIRMAN: Bernard J. Liska

Education: B.S., 1953; M.S. 1955; Ph.D.,  
1957 in Dairy and Food Science  
from the University of Wisconsin

Employment:

1957-1959 Asst. Prof. Dairy Science,  
University of Florida  
1959-1962 Asst. Prof. of Food Sciences,  
Purdue University  
1962-1965 Assoc. Prof. of Food Sciences,  
Purdue University  
1965-1975 Prof. of Food Science, Purdue  
1967-1975 Director, Food Sciences Institute  
1972-1975 Assoc. Director, Purdue Ag. Exper-  
iment Station  
1975-1980 Director, Ag. Experiment Station  
1980 Dean of Agriculture, Purdue

Main Interests: Teaching and research in food  
bacteriology and chemical  
residues in foods.

Memberships: Sigma Xi, American Dairy Science  
Association, International Assoc.  
of Milk and Food Sanitarians,  
American Chemical Society, Insti-  
tute of Food Technologists, Ameri-  
can Assoc. for the Advancement of  
Science.

Publications: Approximately 90 publications in  
foods area in scientific and tech-  
nical journals. Scientific Editor  
of the Journal of Food Science  
1971-1981.

Page 602 is blank

## Poster Paper Session

SESSION CHAIRMAN: Douglas B. Morrison

Douglas B. Morrison received his B.S. degree from Montana State and his M.A. in Speech from the University of Washington, following three years in the service with U.S. Air Corps as a navigator. Additional graduate work was taken at Northwestern University and Purdue University.

After several years of personnel work with industry, Doug returned to education starting at Purdue in 1969. He began at LARS in June of 1974 with the new (at that time) Technology Transfer Program Area and has been Training Coordinator under that program since.

# Session Chairman Address List

## SYMPOSIUM CO-CHAIRMEN

Roger M. Hoffer  
Purdue University/LARS  
1220 Potter Drive  
West Lafayette, Indiana 47906

Richard P. Mroczynski  
Purdue University/LARS  
1220 Potter Drive  
West Lafayette, Indiana 47906

## OPENING PLENARY SESSION

Mason C. Carter  
Prof. and Head of Department,  
Forestry and Natural Resources  
Forestry Building  
Purdue University  
West Lafayette, Indiana 47907

### I.A. EFFECTIVE TECHNIQUES FOR CLASSIFYING FOREST COVER

Roger M. Hoffer  
Purdue University/LARS  
1220 Potter Drive  
West Lafayette, Indiana 47906

### I.B. AGRONOMIC APPLICATIONS OF REMOTE SENSING

Craig S.T. Daughtry  
Purdue University/LARS  
1220 Potter Drive  
West Lafayette, Indiana 47906

### II.A. CLASSIFICATION ACCURACY ASSESSMENT PROCEDURES

David G. Goodenough  
Canada Centre for Remote Sensing  
2464 Sheffield Road  
Ottawa, Ontario  
Canada K1A 0Y7

### II.B. GEOLOGIC APPLICATIONS FOR REMOTE SENSING

William D. Di Paolo  
Bureau of Land Management  
Branch of Remote Sensing (G-234)  
Building 50 DFC  
Denver, Colorado 80225

### II.C. PREPROCESSING AND SYSTEMS

Frederic C. Billingsley  
Jet Propulsion Laboratory  
California Institute of Technology  
4800 Oak Grove Drive  
Pasadena, California 91103

### III.A. SPECIAL REPORTS FOCUSED ON TWO RECENT NATIONAL WORKSHOPS

Part I. David G. Goodenough  
Canada Centre for Remote Sensing  
2464 Sheffield Road  
Ottawa, Ontario  
Canada K1A 0Y7

Part II. Shirley M. Davis  
Purdue University/LARS  
1220 Potter Drive  
West Lafayette, Indiana 47906

### III.B. WETLANDS AND WATER RESOURCES ASSESSMENT

C. Lisette Dottavio  
NASA/Goddard Space Flight Center  
Earth Resources Branch  
Code 923  
Greenbelt, Maryland 20771

### III.C. IMAGE DATA MODELING AND ANALYSIS

Philip H. Swain  
Purdue University/LARS  
1220 Potter Drive  
West Lafayette, Indiana 47906

#### IV.A. UNDERSTANDING AND CHARACTERIZING THE FOREST SCENE

Frank Sadowski  
Senior Application Scientist  
EROS Data Center  
Sioux Falls, South Dakota 57198

#### IV.B. RANGELAND AND LAND USE APPLICATIONS OF REMOTE SENSING

Richard A. Weismiller  
Purdue University/LARS  
1220 Potter Drive  
West Lafayette, Indiana 47906

#### IV.C. REMOTE SENSING AND GEOREFERENCE INFORMATION SYSTEMS

Nevin A. Bryant  
Jet Propulsion Laboratory  
California Institute of Technology  
4800 Oak Grove Drive  
Pasadena, California 91103

#### V.A. FOREST RESOURCE INFORMATION THROUGH REMOTE SENSING

G. Robinson Barker  
St. Regis Paper Company  
434 Clark Road  
Suite 411  
Jacksonville, Florida 32218

#### V.B. REMOTE SENSING AND GEOREFERENCE INFORMATION SYSTEMS

Nevin A. Bryant  
Jet Propulsion Laboratory  
California Institute of Technology  
4800 Oak Grove Drive  
Pasadena, California 91103

#### CLOSING PLENARY SESSION

Bernard J. Liska  
Dean of the School of Agriculture  
Agricultural Administration Building  
Purdue University  
West Lafayette, Indiana 47907

#### POSTER PAPER SESSION

Douglas B. Morrison  
Purdue University/LARS  
1220 Potter Drive  
West Lafayette, Indiana 47906

# Plenary Speaker Address List

## OPENING PLENARY SESSION

Richard Driscoll  
Rocky Mountain Forest and Range  
Experiment Station  
240 West Prospect Station
